

The SAE ECOLINER 050 is the ideal unit to process your lime or cement materials and to recycle your rubble or excavated materials.

The ECOLINER 050 benefits from all SAE's technology in the field of liming for small and medium sites.

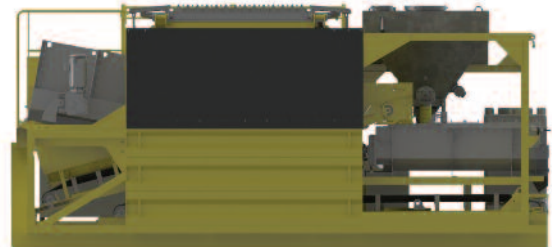

Recovery

- ◆ Input hopper with elevating hydraulic grid to evacuate large elements
- ◆ Built-in 0/40 mm screen, retractable for direct bypass
- ◆ Storage belt, that folds into the set dimensions

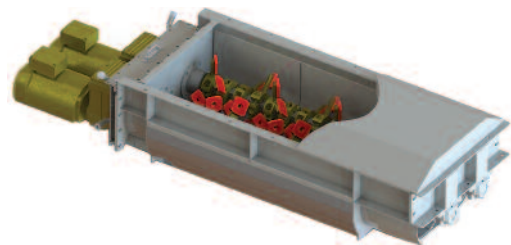

Economical

- ◆ Compact equipment on Ampliroll container, transportable on 26 T carrier
- ◆ Fully autonomous with built-in generator
- ◆ Very low-cost transport, commissioning and operating

Technology

- ◆ High capacity synchronised twin shaft mixer
- ◆ Star technology screen
- ◆ Cement/lime weight metering, precision: +/-2%
- ◆ Secured access to the loading hopper and powder silo

Ecoliner

Equipment

- ◆ 1,200 L powder hopper
- ◆ Powder weight metering screw
- ◆ 0/31.5 mm star screen
- ◆ Water metering unit with buffer tank
- ◆ Generator
- ◆ Foldaway storage belt
